## 2. Scope of the Plan

**Processes that use or produce subject pollutant(s):**

Spray painting :

Other (please specify) :

**Table 1**

Product Used	Manufacturer
Paint	
Solvent	
Other	

### **3. Description of Types, Quantities, and Concentrations of Subject Pollutants Discharged to Sewers**

There is no discharge to the sewers in the normal course of operation. The only discharge to the sewers would be in case of an accidental spill\*

### **4. Description of Current Waste Reduction, Recycling, Treatment and P2 Activities**

Do you use high efficiency spray gun(s)? (i.e. HVLP)

Do you use a solvent recycler?

Do you have a waste management agreement with an Ontario licensed waste hauler?

Name of the waste hauler

Do you use low VOC paint/ coatings product?

Do you have a spill containment & emergency-handling plan?\*

### **5. Description of Pollution Prevention Options (What can be done in your shop to reduce emissions)**

**Table 2**

<b>Options</b>	
(e.g. Use a solvent recycler)	
(e.g. Use low VOC paints)	
(e.g. Train employees on efficient paint application techniques)	
(e.g. Whenever possible, substitute solvent cleaners with water-based cleaners )	

### **6. List of Possible 3 and 6 Year Targets**

Since there is no discharge to the sewers in the normal course of operation, we can not give a 3 and 6 year reduction target. However, we will implement the options we identified in Table 2.

### **7. Declaration**

I, \_\_\_\_\_ of \_\_\_\_\_ (Facility Name) certify that this Pollution Prevention Plan has been prepared in accordance with the City of Toronto Municipal Code Chapter 681 and that the Plan is available at the facility for inspection by the City of Toronto. I further certify that the information submitted in the Pollution Prevention Plan is true, accurate and complete to the best of my knowledge.
