

SEVENTEEN NEW AUTOBODY PRE-APPRENTICESHIP GRADUATES CELEBRATE AT MOHAWK COLLEGE

The graduation ceremony was enthusiastic and well attended. Seventeen pre-apprenticeship autobody and collision damage repairer students have now completed their 8 week mandatory on-the-job paid placement at shops in southern Ontario.

Equipped with their starter toolbox, included with the tuition-free program, all graduates in attendance gladly stepped forward to receive their certificates.

Mohawk College Training Specialist, Debbie DeDauw wishes to acknowledge the successes of these graduates and thank the Government of Ontario, guest speakers, attendees and the following Work Experience Host Employers for their on-going and continued support of this training initiative:
