

GTA Committee

I-CAR has designed new training paths that will assist all professionals in the collision industry. Organized by task areas, the training paths allow individuals to determine their training based on their chosen task area in the collision industry.

Your GTA Committee will be holding the Training Program as follows:

Electric and Electric Hybrid Vehicles-ALT01

This program will include;

- Hybrid Part Terminology
- Safety issues regarding the repair and handling of Electric and Hybrid vehicles
- System Designs and Operation
- System Diagnosis
- Repair Techniques for Electric and Electric Hybrid Vehicles

Date: Tuesday, November 9th
Registration: 7:30 am – 8:00 am
Class Time: 8:00am till 12:00pm
